Career Objective

Motivated and community-oriented individual seeking a summer position to gain valuable experience in a service-driven environment. Bringing a strong foundation in data management and customer service operations from prior internship experience as well as technical problem-solving skills. Eager to support administrative tasks or any tech-related initiatives while contributing positively to the community.

Technical Experience

Google Software Engineering Program (G-SWEP), Participant March 2024 – Sept. 2024

- Participated in two 10-week mentorship programs with Google Software Engineers to enhance knowledge and practical skills in data structures and algorithms.
- Strengthened problem-solving skills through weekly coding sessions.

Aplus Academy LLC, Part-Time Internship Aug. 2021 – Aug. 2022

- Utilized Excel to track student performance and manage operational data across multiple locations.
- Tutored students in English and Math, supporting academic improvement.

NYC Board of Elections, Elections Inspector Nov. 2021 – June 2022

- Served as an inspector in multiple elections, ensuring compliance with voting procedures.
- Handled checking in hundreds of voters and managing ballots throughout the day.
- Organized election paperwork and assisted new poll workers to maintain efficient operations.

Skills

Java, Python, JavaScript, SQLite3, HTML/CSS • Git, Visual Studio Code

Education

Rensselaer Polytechnic Institute Expected Graduation: June 2026
